ECTS TRAINING COURSE

Bone Quality: From Bench to Bedside

Saturday 5 May 2007 09.00-18.00

Copenhagen

SATELLITE TO THE 34TH EUROPEAN SYMPOSIUM ON CALCIFIED TISSUES

Organisers: Dieter Felsenberg (*Berlin, Germany*) and
Eleftherios Paschalis (*Vienna, Austria*)

The aim of this ECTS training course is to provide participants with an overview of the latest opinion on bone quality and related topics, and to give practical guidance on topics such as bone strength, bone mineral density, bone turnover, oversuppression, measurement and genetics. The workshop will comprise a series of overviews and practical advice, given by experts in the field, together with discussion stimulated by issues proposed in advance by the audience.

VENUE

Bella Center, Copenhagen, Denmark
www.bellacenter.dk/english

Home to the Little Mermaid, Lego, and Carlsberg beer; ancient home to the Vikings; gateway to Scandinavia... Denmark offers a lot to its visitors! In the city of Copenhagen, capital of Denmark, you will experience a friendly and international atmosphere that makes it easy to feel at home. Copenhagen is one of the oldest of the European capitals; it is also an important seaport, a commercial hub and a seat of royalty. It is both a traditional and fashionable city, boasting many appealing places of interest.

PROGRAMME

SPEAKERS

Richard Eastell (*Sheffield, UK*): Bone turnover

Peter Fratzl (*Vienna, Austria*): Bone mineral quality

Nigel Loveridge (*Cambridge, UK*): Porosity and bone strength

Ralph Müller (*Zurich, Switzerland*): Bone mineral density and micro-CT

Socrates Papapoulos (*Leiden, Netherlands*): Oversuppression:
What is it? And does it exist?

Stuart Ralston (*Edinburgh, UK*): Genetics and bone strength

Simon Robins (*Aberdeen, UK*): Collagen

Paul Roschger (*Vienna, Austria*): Bone mineral density distribution

Graham Russell (*Oxford, UK*): Bone strength: an overview

Hans Schiessl (*Pforzheim, Germany*): Mechanics: the basics

SPEAKERS WILL:

1. Define the subject/outcome
2. Explain its relevance to bone quality and bone strength
3. Mention the pros and cons of the techniques employed
4. Provide clinical examples
5. Discuss availability in the clinical setting
6. If applicable, state how existing therapies affect the specific outcome
7. State his/her vision for the future

CLINICAL CASES

Participants will be invited to propose clinically relevant problems they are either encountering or contemplating for discussion during the day.

WHO SHOULD ATTEND?

- Clinicians
- Basic research scientists
- Pharmaceutical representatives

CONTINUING MEDICAL EDUCATION (CME)

CME accreditation has been applied for.

REGISTRATION DETAILS

The course fee is €95 for ECTS members and €145 for non-members. The fee includes lunch, tea and coffee. Payment should accompany your booking.

Accommodation details will be available on the ECTS website from September 2006 and you can also register on-line at www.ectsoc.org/courses.
